

# 2: Get Connected

**1** Visit the Net Nine Nine website and click  
**“Get Connected”**

**2** Click **“Check Coverage”**  
and put your address

**3** “Choose a Package”

**4** Checkout and follow the instructions to  
“Create a account”

**5** **“Verify your e-mail”**  
and set up your password.

**6** You will **“receive a call”**  
from a Net Nine Nine agent.

**7** **“Confirm your information”**  
to our sales agent.

**8** **“Choose installation time slots”,**  
you will need to be at the address during the  
installation.

9

You will receive a call to

**“confirm your installation”**

and you will be given the installer’s details.

10

**“An installer will arrive”**

and will request access to the property to begin the installation.

**11** When installation is complete, the **“contractor will request activation”** of your chosen service.

**Don't forget to Download the App!**

**Within 24h of the completion of the installation your fibre internet service should be active, and you should be enjoying your high-speed connection.**
